Course 800C provided participants with an overview of Canadian real estate laws and how they may be encountered within the right of way industry. With any Right of Way work it is important that every employee have a basic working knowledge and understanding of our laws. Therefore Chapter 66 decided that this in person only course was a must. This course attracted a few members from Manitoba and a few from neighboring provinces.

Our course was successful even with few attendees, and was indeed very beneficial to the participants. We are trying to compete with the growing online courses by offering in person classes that allow for right of way networking and a personal touch by the instructor.

Our chapter's goal is simply breakeven but with a small turn out the chapter is still at a loss. However, with the generous sponsorship from CRWEF we are able to minimize our losses from the course. Our course participants were able to attend our Chapters AGM where we announced and acknowledged the CRWEF Sponsorship.
