RE: Chapter 63 – 2015 Fall Seminar

On November 6, 2015, Chapter 63 held a very successful Fall Seminar entitled "All Things Corridor." The Chapter hosted 56 paid attendees and 14 presenters.

Attached is a copy of the Agenda for the day which included 7 excellent presentations on a variety of topics that had something to do with many types of corridors.

The Chapter received only positive feedback from many of the attendees and presenters: "Found the line-up of presentations to be very informative and applicable to our line of business (natural gas utility). Can actually say this was one of the better seminars I've attended! Thank you!" and "Excellent and very informative."

The CRWEF's contribution of \$1,000 specifically allowed the Chapter to secure excellent audio-visual assistance from the venue for the day. This included a laptop, microphones, projector and screen.

In general, the CRWEF's contribution helped Chapter 63 raise \$10,894 for the Chapter's bid to host the IRWA International Education Conference in 2021!

The Chapter was delighted to acknowledge the CRWEF's contribution in our flyer, Agenda, in an electronic messaging slide during the conference as well as on poster boards set up in the gathering area between rooms. Chapter President, Nancy Sinclair, also verbally acknowledged the CRWEF and all the event sponsors at various times during the day.

Chapter 63 thanks the Canadian Right of Way Education Foundation for contributing to the first of what we hope will be many successful Fall Seminars!!

With appreciation,

A handwritten signature in blue ink that reads "Cynthia Dubeau".
